◆ Bob LeBlanc

My name is Bob LeBlanc and I am a 57 year old male. I am 6'3" and weighed 245 lbs before Tru Chocolates. I have lost 40 pounds in 8 weeks and now weigh 205 pounds. I just eat four chocolates a day with a 9 ounce bottle of water and initially I did not exercise! I still ate the same foods but much smaller portions. I had a real sweet tooth and would eat sweets all the time, but since TRU chocolate I stopped all the junk food and sweets. I have a lot more energy and now I started walking 20 minutes a day. My goal is to lose another 5 lbs and get down around 200 and then I will continue use the chocolates to maintain my weight. I feel great!

Testimonials

◆ Linda Freitag

After one week of taking 2 Tru Chocolates a day, I had popping in my ear canal for over a year from a lingering infection and the popping ceased! I am a migraine and head ache sufferer - I had eight headaches in February and 4 were Migraines. I have had no headaches since eating the Tru Chocolates and my brain feels more comfortable in my head. I have lost 5 pounds and the cellulite has noticeably decreased on my thighs and I lost the fat on my stomach and bloating. For the first time in my life at 53 my sugar craving is under control! I am hypoglycemic and I don't feel as edgy physically and feel more mellow. I also sleep deeper at night and these chocolates taste so good!

◆ E. L.

I was on Jenny Craig for and in 6 months and lost only 5 pounds. I have been on the Tru Chocolates for 7 days and I have lost 6 pounds. I had dental work a few days prior to getting on the chocolates and was on an antibiotic. As with most women I developed a yeast infection and I was just about to call the doctor. When I started the chocolates the infection disappeared -no telephone call needed to be made. I am also hypoglycemic and I was having attacks at least twice a week...I think being on Jenny Craig may have had something to do with it. Well, since being on the chocolates...NOT ONE ATTACK!!!!!!

◆ Paul Papetti

I am 56 years old, weighed 202 with a height of 5'6". I was semi pro in 3 sports and had a 6 pack abdomen in my 30's until an injury. Then that 6 pack turned into a "keg" and over the next 20 years I gained 50 pounds. February 13th I started with TruChocolates and the first week I lost 8 pounds and my waist went from 38" to 36". I started to believe.... The second week I didn't expect to lose much more but I lost another 9 pounds and thought my scale was off. My 36" waist went to a 34" and over the next 4 weeks I lost a total of 37 pounds and now my waist is a 31. I found my abs again and I feel awesome. Even I cannot believe my before and "now" photos - all in 7 weeks!
